

Shelly Pro 3EM - Short commissioning

This brief installation instruction provides a quick overview of all the necessary steps. Additional information, references, and sources can be found in our [HelpCenter](#). The Installation instructions are only valid for the integration of the energy management system and the configuration of relevant assets. Make sure to carefully read the [safety instructions](#) and adhere to the [Infrastructural requirements for a gridBox gateway installation](#)

Connection

You can connect the meter to the network via LAN (1 RJ45 connection) or WLAN. We strongly recommend integration via LAN.

1. Connect the Shelly Pro 3EM to the local network via the LAN port.
2. Switch on the Shelly Pro 3EM. The power LED should light up red.
3. Wait until the LAN LED lights up green and indicates an active connection.

Configuration

No further configuration is required.
